Five New Regiments of Engineers Forming

Washington, June 7.—Five new regiments and nine battalions of railroad engineers to augment those already in France are to be completed under Director of Military Railway S. M. Pelton. When organized 50,000 American railway men will be on construction and operation work in France. One hundred and sixty millions have been spent for supplies and equipment, including 1727 engines, 22,630 freight cars, 359,000 tons of steel rails, construction of docks and terminal facilities.

The nine original regiments selected from chief railway cities have been in France since August last. The Chicago regiment originally listed as the third, has been dubbed the lucky thirteenth, having been changed to the thirteenth on Friday, July 13, landing in England on August 13 and getting its first engine No. 13.

WHERE SHOPPING IS A PLEASURE

Oregon crops during May, according to a report of F. L. Kent, field agent of the United States department of agriculture.

The result was that wheat was slightly below normal on June 1, although that crop on May 1 was greatly in advance of last year and somewhat ahead of normal.

Average of both spring and winter wheat has been greatly increased over last year it is believed. With favorable weather conditions from now until the harvest, Oregon will produce about 20,000,000 bushels of wheat says Kent. The state now needs a good soaking rain followed by warm weather.

SALEM'S SECOND

(Continued from page one)

I do not expect a profit, except the profit of making friends among those who visit our store.

This seems to be the general spirit of all the stores, shops and shows that have put their shoulders to the wheel of the Bargain Day proposition. They are all working in harmony for the building of better and more friendly trade relations between Salem and every other part of Marion and adjacent counties. Mingled with this harmonious effort is a good-natured business rivalry as to when will offer the most attractive inducements to buyers. From what has already been learned many ingenious sale plans will be put into effect on this day of all days for bargains.

It makes little difference what the shopper may want—the bargain stores are of such a diversified character that everything desired will be available at rock bottom prices; clothing for men, women and children, shoes for the whole family; jewelry for the relative, sweet heart or friend, toys for the little tots; candy for the Christmas stocking; furniture of every description; wallpaper, paints and varnishes; millinery of the most popular effects; movie shows of unusual merit; stoves, hardware and farming implements; and stationery and novelty goods without end.

The following merchants have already joined the Bargain Day move-

ment. Others will be added from day to day.

Sequel To Love For Doll

Maternal Instinct Greatly Developed by Teaching Children to Love their Dolls.

The little child's doll is mother to the most romantic fairy. And in the years that pass, the doll fades into the petals of a June rose, to evolve the most wondrous of all transformations.

And now comes a more serious period when the joy of real motherhood should be as tranquil as best efforts can provide. This is accomplished with a wonderful remedy known as Mother's Friend. An external application of penetrating its nature to thoroughly lubricate the myriad network of cords, tendons, nerves and muscles just beneath the skin of the abdomen.

It relieves the tension, prevents tenderness and pain at the crisis and enables the abdomen to expand gently. The muscles contract naturally after baby arrives and the arm is thus preserved from the strain of the crisis is less.

You will find Mother's Friend on sale at every drug store. It is prepared only by the Bradford Regulator Co., Lumber Bldg., Atlanta, Ga. They will send you an instructive "Motherhood Book" without charge. Write them to mail it to you. Do not neglect for a single morning or night to use Mother's Friend. Obtain a bottle from your druggist today by all means, and thus fortify yourself against pain and discomfort.

NIGHT BATTLE

(Continued from page one)

the enemy, taking more than a hundred prisoners and ten machine guns. French infantry, on the left took 160 prisoners. Continuing their advance, the Americans fought their way through the rank Prussian troops opposing them, punching their way past Bussieres and occupying Torey, part of Belleau wood, the village of Bourches and the railway station and railway in the latter place.

The desperate defense by the enemy prevented the Americans from attaining some of their objectives but the attack was renewed late today, with great violence.

In regimental and brigade headquarters, officers who had not slept for five days and nights sat at telephones during the attack, receiving reports and sending out orders.

Belleau wood was subjected to a fierce artillery bombardment prior to the attack, but the infantry encountered elaborate machine gun defenses which were still intact.

In fierce fighting there, the marines finally took the northwest corner of the wood, the boches then re-taking the wood beyond in fierce counter attacks.

I was at brigade headquarters when the report came of the counter attack. "Hold on, hang on, Sibey! We're coming out to help you," was the cheery word a major phoned back, though he

himself was near exhaustion from lack of sleep.

A few minutes later came reports from various companies that they were reaching their objectives and establishing communication with each other. In the meantime, trench mortars were ordered up and blew up boche positions that were still holding out.

The flash of artillery lighted the sky all night. The banging of guns was constant.

At dawn, I went to an advanced position at the extreme right. The German artillery was becoming more active.

Practically all the fighting had been carried on through wheat fields and woods. The Americans would rush ahead a little way, pause to resist a counter attack and then rush on again.

The boches clung to the railway station at Bourches for several hours. Finally the American rush could not be denied and our boys swept into the village, fighting their way through the streets, storming the station and winning control of the railway.

Bourches, which has been fought over several times in the new Marne battle is about 4 miles due west of Chateau-Thierry. Belleau is about 2 miles north and slightly west of Bourches. Belleau wood lies between the two villages. Torey is about half a mile northwest of Belleau. Bussieres is a mile west of Torey. Neully-La-Poterie is two miles and a half west of Bussieres. Neully wood lies south of the village. The railway captured by the Americans runs northward from Chateau-Thierry, through Bourches, Belleau, Torey, Bussieres, Neully and Vaux, crossing the Ouseq and Neufchelles.

AUSTRIA RIPE FOR REAL REVOLUTION

Movement Similar to That Which Overthrew Czar Is Gathering Force

Berne, June 7.—Austria is about to undergo an experience similar to that of Russia, when the czar was dethroned, according to statements today of travelers returning from Vienna. They declared it is significant that innumerable attempts have been made against military works and establishments. In the Adriatic region, Slavs have destroyed mines in the ports and canals of Dulmatia and on the Croatian coast. In Bosnia, Hungarian patrols have been massacred and railways seriously damaged.

The food situation is very serious and the government has posted decrees in the region from Gratz to the sea, declaring that revolt, desertion or complicity in military transgressions are punishable by hanging or shooting.

The burgomasters of Munich, Crefeld and Dessau have been imprisoned for profiteering. At Munich the burgomaster narrowly escaped lynching. A mob which charged he had filled his residence with government food, stormed the house but he had fled. They seized the food and sold it at huge war profits.

The food is worse parts of Germany is growing worse, it is reported. At Cologne, a mob attacked an unguarded food train, completely emptying it.

The check the allies have given the German drive is no rain check, either.
